July 2017**

**Kodak SP360 4K Cameras (duo pack)**

***The Process***

Records on two separate SD cards. (one card for each camera)

Transfer files to computer. (Mac or PC)

Use the free stitching app called Stitch by Kodak

Import the two VR clips into the Kodak app

The app will auto stitch the two clips (front camera and back camera) together

Once stitched, export the stitched video

Upload the final stitched video into Youtube or Facebook. The two platforms automatically recognizes it's a 360 video.
